9/26/74

Dear Harold:

I understand your position, clearly. The approximate terms are simple enough: 1) $10,000 for research and script consultation; 2) salary as technical adviser on film; 3) 2% of producer's share of profits (predicted to be worth between $100,000 and $200,000).

The problem is that as of this date MLK does depend on RFK.

I will be in the D.C. area on October 16 and will call upon. I hope by then that the above terms will be more than "talk." I'm doing my best despite unforeseen problems and the current economic panic and dry-up of funds.

Peace,

B
